

## TECHNICAL INFORMATION

Catalog Number: 151250  
**Hexamethylenetetramine**

**Structure:**

**Chemical Formula:** C<sub>6</sub>H<sub>12</sub>N<sub>4</sub>

**Molecular Weight:** 140.19

**CAS # :** 100-97-0

**Synonym:** Methenamine

**Physical Description:** White powder

**Description:** A reagent for preparation of amino acids

**Solubility:** Soluble in cold water, chloroform, alcohol; insoluble in diethyl ether
