ImmunO™

Rabbit Anti-Dog IgM Serum (Lyophilized)
Catalog #: 64371
Lot #: M5386

Form: Lyophilized antiserum in 0.02 M potassium phosphate, 0.15 M sodium chloride, pH 7.2 with 0.01% sodium azide as preservative.

Reconstitution: Reconstitute with 2.0 ml of deionized water.

Host: Rabbit

Immunogen: Dog IgM mu chain fragment

Protein

Concentration: 75.0 mg/ml

Description: The material is prepared from monospecific antiserum by delipidation and defibrination.

Specificity: This product is specific for dog IgM by Immunoelectrophoresis. Result by this method is a single precipitin arc against Dog IgM and Dog Serum. There was no reaction to Dog IgG.

Applications: The antibody can be used in different immunological methods.

Storage: Store the lyophilized product at 2 - 8°C. For long term storage after reconstitution, aliquot and store at -20°C.
